

Production Access Questionnaire

Testers Community

The objective of this report is to provide comprehensive answers that our clients can use to fill the production access form. You can use the answers directly or can make changes based on how you improved the app. After 14 days of testing, users will be prompted to fill a form on closed testing to get access to production. This document can be helpful in answering those questions.

App Name: Bottlezero

App URL: https://play.google.com/store/apps/details?id=com.bottlezero.app

Production Access Questionnaire

1) How did you recruit users for your closed test? For example, did you ask friends and family, or use a paid testing provider?

We used a paid testing provider to gather comprehensive feedback on BottleZero. Additionally, we reached out to some of our target users, environmentally conscious individuals, to obtain real-world insights from those who would benefit most from the app.

---

2) How easy was it to recruit testers for your app?

Answer: Easy
(You can select your own answer).

---

3) Describe the engagement you received from testers during your closed test

Testers engaged actively, providing valuable insights into app functionality and user experience. Their feedback led to essential improvements, such as

the addition of a dynamic walkthrough and enhanced app descriptions, increasing user satisfaction and retention.

---

4) Provide a summary of the feedback that you received from testers. Include how you collected the feedback.

Testers highlighted the need for optimized ASO, better screenshots reflecting app features, a "Rate Your App" button, and a dynamic walkthrough for new users. Feedback was collected via surveys and direct communication, ensuring we captured diverse perspectives.

---

5) Who is the intended audience for your app?

BottleZero is designed for environmentally conscious individuals seeking to reduce single-use plastic consumption. It targets eco-friendly users, students, and anyone interested in tracking their impact on plastic waste and promoting sustainability in their daily lives.

---

6) Describe how your app provides value to the users.

BottleZero empowers users to track their impact on reducing plastic waste through easy logging of refills. It provides real-time stats on plastic avoided,

CO2 prevented, and money saved, fostering a sense of community and encouraging sustainable habits while rewarding users for their efforts.

---

7) How many installs do you expect your app to have in your first year?

Answer: 10k - 100k
(You can select your own answer).

---

8) What changes did you make to your app based on what you learned during your closed test?

In response to feedback, we optimized the app description for ASO, created engaging screenshots that showcase features, added a "Rate Your App" button, and implemented a dynamic walkthrough to enhance user onboarding, improving overall usability and engagement.

---

9) How did you decide that your app is ready for production?

After thorough testing and incorporating valuable feedback, we ensured that BottleZero is user-friendly, stable, and effectively communicates its value. The app is now optimized for user engagement and meets the necessary criteria for successful deployment on Google Play.

---

10) What did you do differently this time?

This time, we focused on enhancing user experience through proactive feedback collection and implementing essential features like a dynamic walkthrough. We also prioritized app visibility by optimizing descriptions and visuals, resulting in a more polished and ready-for-production app.

You can use the above answers or add your personal touch to those answers to make them more natural and meaningful. Don't forget that this form plays the most important role in the entire process of getting production access. If you have any more questions, please feel free to contact us.

Best regards,
Testers Community Team
